Many students begin their foray into the study (and practice) of entrepreneurship via two longstanding and popular courses. ENGN 9, the iconic course taught by Professor Hazeltine (and now co-taught with Thano Chaltas), covers many of the foundational elements of the business and non-profit enterprise and introduces students to the fundamentals of management.

Courses - Jonathan M. Nelson Center for Entrepreneurship
Knowledge entrepreneurship describes the ability to recognize or create an opportunity and take action aimed at realizing an innovative knowledge practice or product. Knowledge entrepreneurship is different from ‘traditional’ economic entrepreneurship in that it does not aim at the realization of monetary profit, but focuses on opportunities with the goal to improve the production (research ...

Effective road transportation is crucial to economic and social well-being. The quality of our road systems helps determine whether we will be involved in a traffic accident, the response time of emergency service, the cost of our car insurance, whether we arrive at our jobs in a good mood, the quality of the air we breathe, whether the shelves of our local stores are well-stocked, and much more.
