Economics (/ɛkəˈɒmɪks, iːkə-/) is the social science that studies the production, distribution, and consumption of goods and services. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Postmodernism is a broad movement that developed in the mid- to late 20th century across philosophy, the arts, architecture, and criticism, marking a departure from modernism. The term has been more generally applied to the historical era following modernity and the tendencies of this era. While encompassing a wide variety of approaches, postmodernism is generally defined by an attitude of ...

The Geography of Transport Systems
1. Introduction and background. Competitive tendering has been introduced on the local bus markets in Europe in response to increasing costs and, from the early 1990s, in anticipation of EU-
regulation (1370/2009), according to which competitive tendering with a few exceptions has become mandatory.

20 years of competitive tendering in the Norwegian bus ...
