The Articulate Mammal An Introduction
Mammal - Form and function: The skin of mammals is constructed of two layers, a superficial nonvascular epidermis and an inner layer, the dermis, or corium. The two layers interlock via fingerlike projections (dermal papillae), consisting of sensitive vascular dermis projecting into the epidermis. The outermost layers of the epidermis are cornified (impregnated with various tough proteins ...

"It is an important and popular fact that things are not always as what they seem. For instance, on
the planet earth, man has always assumed that he was more intelligent than dolphins because he
had achieved so much: the wheel, New York, wars.

This essay underlines the timely importance of research into historical geographies of science and
technology as a basis for better understanding the emerging ‘New’ Arctic, where climate change
has heightened international interest in northern navigation routes and mineral exploitation.

[page 3] 9. Widespread objection was raised against that fourth aim, although there was support for
it in some quarters. The Inspectorate's follow-up publication (English from 5 to 16: The Responses
to Curriculum Matters 1) reported that they had accordingly asked those who had commented what
they judged teachers should be expected to know about language and about language
development in children.

The associate professor of psychology at the University of Virginia Jonathan Haidt has come up with
a definition of Morality that is quite useful. He used secular means (the scientific method) to arrive
at what he considered a sound foundation for Morality (which he denotes as synonymous with
Ethics). He has reduced Morality to be comprised of five basic components. 1 Harm/Care 2 Fairness ...

A very recent article follows in the footsteps of many others talking about how the promise of
autonomous cars on roads is a little further off than many pundits have been predicting for the last
few years. Readers of this blog will know that I have been saying this for over two years now. Such
skepticism is now becoming the common wisdom. In this new article at The Ringer, from May 16 th, the ...

Note: This is the result of my being rather tired of hearing the same old excuses from so many
malzoans and typing all the same responses over and over. It’s now so much easier to cut and
paste from here! Much of this was lifted from other sources without permission. My apologies to
those authors.

For long-term success in school, business and life, learning HOW to think is far more important than
learning WHAT to think.. Yet rather than serve as the core of any education worthy of a rational
human being, we have relegated the teaching of logic, argument analysis and critical reasoning to
specialty courses in universities that reach too few students, too late in their education.
